

Radiant Room

\$144.95

Size: 3"x 3" disk

The Radiant Room can protect a single room – up to 400 square feet – from the health dangers of EMF radiation. And you can take it with you wherever you go. It is the ideal solution for clearing and protecting bedrooms, small offices, classrooms, hospital rooms, lecture halls, hotel rooms and any place you can't easily use the SafeSpace EMF Adapter.

Product Details: Size: 3" x 3" X 1/4" disk

Range: Radiates a 400 sq.ft protective field

Material: Plexiglass case for protection

Clear a single room at home or away

The Radiant Room protects smaller spaces from external EMF sources such as smart meters, cell towers, high-voltage power lines, wireless networks and geopathic stress.

It creates an overlay of benign energy that can:

- Neutralize harmful EMFs immediately
- Help you experience an increased sense of well-being
- Enhance mental and emotional clarity
- Restore balance and tranquility to your environment
- Help you get more-restful sleep.

Start feeling better right away

The SafeSpace Radiant Room begins to work immediately, and it continues to keep the areas clear of EMFs as long as it remains in place. All you have to do is remove it from its velour carrying case and place it on any flat surface or attach it to a wall. You can move it easily from one location to another, although if you remove it from the room, the EMF dissonance will return.
